

Mohamed Assaf

Software Developer

Motivated young student with no previous experience with a big passion to progress within the Software Industry I love learning new technologies. I am a quick learner with a catchy mindset and very quick thinking. I have knowledge in two main languages (Python, JavaScript).

Front end(HTML/CSS) (09/2022 - 10/2022)

PROJECTS

Portfolio (Html/CSS)

Simple Portfolio about myself using pure HTML and CSS you can check the link above my GitHub.

STW (Share the world) Django

Django/Python website where you can post pictures from the internet of places you visited, And with the package manager Django-all auth there is a Login/Register option to create, login, delete, and edit an account. Also, you can edit or delete the post if the post is yours otherwise you can only add a comment as a viewer.

Django Rest Framework (Company-Employee)

This project is a JSON REST API using Django Rest Framework, it is a Simple CRM system for companies: CRUD API to manage companies, and CRUD API to manage company employees. The project also contains Unit Tests for both the company and its employees.

DOM (Daily task tracker)

Daily tracker website where you can put tasks to do for the day, and see when you finished the task or if you did it or not. The project is made with DOM manipulations including query selectors and EventListener on click exc...

TICTACTOE

A game of Tic tac toe with the option of playing against the computer, the game uses some of the OOP principles that we all know. Inheritance is used for the player whether it's a human player or a computer.
